that stands near the house which was his
home for so many years, he made axe
handles, ox goads, ox bows and other
things. He was a very ingenious man
and put the best of his skill into whatever
he made there. The brand E. P. K. was
assurance of expert workmanship and the
best of material to be had. The memory
of the E. P. K. axe handle and the genial
smile which always lived with those who
were familiar with them. Whoever should
in time to come carry on the same work
in this little shop must look to it that
the goods sent out from there are of a
high standard of excellence if they would
compete with the work done there by Mr.
Kimball.
